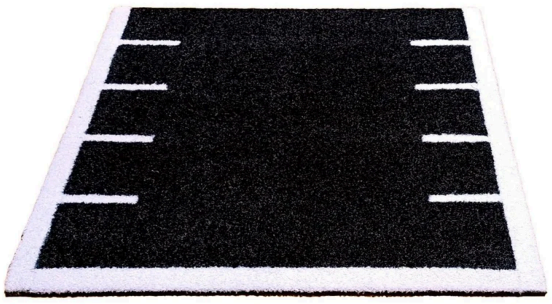
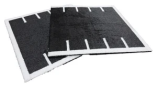
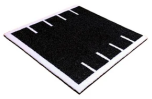
30mm Black Premium Sled Track Turf Tile 1x1m







SKU: **See variants**

Build your sled track to any length or width with 30mm Premium Turf Tiles. Each tile combines a 20mm shock-absorbing base with a 10mm sprint track surface, giving you a durable, high-performance flooring solution for functional zones. Use as a sled track or impact-resistant surface for kettlebells and free weights Choose from 3-line (mid/end) or 4-line (start) tiles to customise your layout Enhanced grip, noise reduction, and shock absorption for high-intensity use Easy loose-lay installation with secure plastic connectors Seamlessly integrates with rubber flooring systems Durable, low-maintenance and bacteria-resistant
