

Endurance Recumbent Bike

SKU: **GG-ENDUR-RB**

Efficient, quiet, and built for comfort, the Endurance recumbent bike delivers a premium experience through smart design and full connectivity. Its self-generated magnetic brake system ensures smooth resistance without needing an external power source, making placement flexible and hassle-free. The interactive monitor supports a wide range of programmes, virtual sessions, and performance metrics, allowing users to tailor workouts and track progress with ease. GymLoop integration adds real-time tracking and personalised features to keep users engaged, while gym operators gain live data and maintenance alerts to keep everything running sm...
