

Mediana - i30 Body Analyser

SKU: **MED/I30**

Boost member retention and increase profits Download our free guide, Maximising Revenue with Your Mediana and see how this advanced analysis system can strengthen your gym’s performance and long-term success. Advanced analysis for a complete health picture, this Body Composition Analysis system provides precise insights into protein, water, fat, and mineral balance. With multi-frequency scanning and segmental reporting, it helps track progress, highlight health risks, and support long-term performance and wellbeing.

Key Features

• Multi-frequency technology (5, 50, and 100kHz) for accurate body composition readings

• Segmental analysis to monitor fat, muscle, and balance across limbs and trunk

• 7” touchscreen with simple, intuitive controls

• Child-friendly measurement mode for wider usability

• Detailed metrics: Total Body Water, Muscle Mass, Fat Mass, Fat-Free Mass, Protein, Mineral, Skeletal Muscle

• Progress tracking with history graphs for weight, skeletal muscle, and body fat

• Health risk indicators including visceral fat and abdominal fat ratio

• Calorie insights covering BMR, Total Energy Expenditure, and activity-based consumption

• Custom analysis tools including Mediana Score, Body Type Graph, Obesity Degree, and BMI

• Easy connectivity via QR code for mobile app (Iapp) and PC software (Bocalyzer)

Technical Specifications

Weight	17.5 kg	**Screen Type**	LCD
Length / Depth	36 cm	**Bluetooth**	Yes
Height	107.7 cm	**Power Required**	DC Adaptor (input: 100-240VAC, 50-60Hz, 1.5A(1.5-0.7A) / Output: 12V, 5.0A)
Width	55.9 cm
