

ML4175SB

Bar Stool with Metal Ferrules

A plain upholstered back with an open gap above the seat gives this bar stool a clean, airy look, finished with straight square legs and metal ferrules at the feet. Mortise-and-tenon/dowel joinery and corner-blocked joints help keep the solid hardwood frame stable under daily use. High-density foam over a solid deck seat delivers firm support with a tight seat for minimal maintenance. Upholstered in your choice of COM. Meets commercial fire-rating standards.

PRODUCT HIGHLIGHTS

- Mortise-and-tenon/dowel joinery for firm, durable support
- Tight upholstered seat for a tailored, low-maintenance look
- Plain upholstered back with open gap for lighter visual feel
- Square straight legs with metal ferrules for floor protection
- Corner-blocked joints to reduce frame movement and add stability
- High-density foam over a solid deck seat for lasting support
