

MS4613CS

Counter Stool with Metal Stretcher

Sloped low arms wrap into a plain upholstered back for a supportive, pull-up-and-stay counter stool. An exposed wood frame pairs with metal stretcher bars between the legs to help keep footing steady in busy dining areas. Inside, a solid hardwood frame with mortise-and-tenon/dowel joinery and corner-blocked joints is built for lasting stability, topped with a solid deck seat and high-density foam. Upholstered in your choice of COM. Meets commercial fire-rating standards.

PRODUCT HIGHLIGHTS

- Solid hardwood frame for strong, durable use
- Mortise-and-tenon/dowel joinery for firm, durable support
- Corner-blocked joints reduce frame movement for lasting stability
- Solid deck seat for a very firm, durable foundation
- High-density foam cushioning for support and shape retention
- Metal stretcher bars between legs for reduced wobble
