

Coloured Bumper Plates

SKU: **See variants**

High-grade rubber coating for durability and floor protection. These Coloured Rubber Bumper Plates are built to withstand repeated drops, making them perfect for Olympic lifting, CrossFit, and heavy strength training. The colour-coded design allows fast weight identification for smooth, efficient workouts.

Key Features

- Engineered for Olympic lifting, CrossFit, and powerlifting
- Colour-coded plates for quick, easy weight selection
- Durable rubber coating protects equipment and flooring
- Noise-reducing design for a safer, quieter training space
- Stainless steel inner ring for smooth bar loading and secure fit
- Rust-resistant finish ensures long-lasting performance

Weight Colours:

Grey - 5kg
Green - 10kg
Yellow - 15kg
Blue - 20kg
Red - 25kg

Plate Thickness:

5kg - 25mm
10kg - 47mm
15kg - 62mm
20kg - 72mm
25kg - 82mm

Note: Always use on a quality lifting platform to extend the life of plates and bars.
