

Pro Series, Leg Extension

SKU: **GG-PRO-116**

The Pro Series Leg Extension targets the quadriceps with precision and comfort. With a quick-select weight stack and simple back pad adjustment, it allows users to get into the ideal training position with minimal setup. This machine supports effective strength development through controlled knee extension, making it suitable for users of all levels.

Key Features

- Sixteen starting position adjustments to accommodate a wide range of users
- Angled back pad reduces hamstring tension, promoting better quad activation
- Adjustable back support allows a customised fit for users of different heights
- Selector pin system for fast and easy weight changes
- Built for commercial use with a focus on user comfort and biomechanical efficiency
