

XT3 Plus Sled V2

SKU: **GG-XT3**

Officially DEKA-approved, the XT3 Plus Sled V2 delivers unmatched performance for strength and conditioning. Built for competition-level training, it combines advanced design, durability, and optional smart tracking to push athletes further. A compact vertical storage footprint makes it a powerful yet space-saving solution for any facility.

Key Features

- Official DEKA-approved equipment for training and events
- Magnetic resistance with 8 levels for progressive intensity
- Tri handlebar and low handlebar for push, pull, and wheelbarrow exercises
- Front weight sleeve enhances traction and prevents tyre skidding
- Noise-reducing wheeled design for use on most surfaces
- Compact 714mm x 598mm footprint with upright vertical storage
- Fits through standard doorways for easy transport
- Optional Smart Connect console tracks speed, distance, watts, and workout history
- Accessories included: phone holder and V-strap for harness or rope attachment
