

M Sport Pro Indoor Studio Bike

SKU: **GG-SP-004**

Built for performance, comfort, and endurance the M Sport Pro Bike delivers a smooth, quiet, and fully adjustable ride trusted by gyms, leisure centres, and PT studios across the UK. With upgraded resistance control, integrated recovery features, and precision tracking, it's engineered for serious cycling performance in demanding environments.

Key Features

- Aluminium 20kg equivalent flywheel for a smooth, consistent ride
- Steel forge crank and ultra-strong BB axle built for heavy commercial use
- Magnetic braking system with 16 levels of precision resistance
- Central lever control for quick, accurate intensity changes
- Integrated wired computer for full workout tracking and data accuracy
- Wireless heart rate monitoring via included chest strap
- Belt-driven transmission for quiet, low-maintenance operation
- Stainless steel seat and handlebar posts resist sweat corrosion
- Fully adjustable vertical and horizontal seat and handlebar positions
- Dual-sided pedals with toe cages, straps, and SPD cleats for versatility
- Q Factor of 183mm ensures natural alignment and comfort
- Durable paint finish protects against rust and simplifies cleaning
- Integrated stretch blocks on rear stabiliser support post-ride recovery
