

Fixed Rubber Barbell Sets

SKU: **See variants**

Fixed-weight barbells offer fast, hassle-free training with no need to switch plates mid-workout. Choose from a full range of weights from 10kg to 45kg or opt for a set to suit your space and training needs. Ideal for busy gyms and studios, these fully commercial barbells are built to last with a solid steel core and shock-resistant virgin rubber coating. The one-piece design eliminates weak points and loose ends, while dual knurled grips provide superior handling and safety. A clean, modern finish and clear weight identification make these a smart addition to any facility. Solid steel core with black virgin rubber coating Fully enc...
