

Rhino Strength Machine

SKU: **GG-RHINO-002**

All-in-one strength training in a compact footprint, the Rhino Strength System combines a cable crossover, Smith machine, and half rack in one versatile unit. Built for commercial gyms, PT studios, and premium home setups, it delivers hundreds of full-body exercise options with smooth performance, integrated safety features, and smart storage.

Key Features

- Plate-loaded cable crossover with 32 height settings for precise positioning
- Dual adjustable pulleys for push, pull, and rotational movements
- Commercial-grade Smith machine with linear bearings and safety locks
- Half rack with polymer-coated J-hooks and spotting arms for barbell protection
- 6 Olympic plate storage horns and vertical bar holder for organised storage
- Integrated hooks keep cable attachments tidy and accessible
- Full range of cable attachments included for varied training
- Maximum user weight capacity: 250kg
