

Pro Series Flat-Incline Adjustable Bench

SKU: **GG-PRO-146**

The Gym Gear Pro Series Flat-Incline Adjustable Bench is built for serious strength training, offering rock-solid stability and professional-grade features. With 10 laser-cut backrest angles and a welded support bar for flat bench stability, it delivers uncompromising performance for both flat and incline work. Ideal for heavy dumbbell training, this bench blends durability, safety, and versatility into one compact unit. 10 backrest incline positions from flat to 85°, precision laser-cut 3 seat angle positions from flat to 30°. Welded rear support bar mimics fixed bench stability when flat 30mm thick seat and back pads for firm, s...
