

HIITMax Training Station with Screen & App

SKU: **GG-HIITMAX-SET**

All-in-one HIIT performance with a fully integrated 21.5” touchscreen and training app. The HIITMax Training Station delivers structured, full-body workouts from a single, compact footprint. Built for commercial environments, it combines heavy-duty construction with smart programming to drive results without constant coaching input. Learn more about the HIITMAX here.

Key Features

• Commercial-rated 75 x 75 x 3mm steel frame for strength, stability and long-term durability

• Integrated 21.5” Full HD touchscreen with HIITMax Training App for guided, progressive workouts

• App programmes ranging from beginner to advanced to suit a wide user base

• Wrecking ball attachment for explosive conditioning and interval training

• Integrated landmine for rotational, pressing and core-focused strength work

• Multi-grip chin-up station supporting pull-ups, suspension work and upper-body development

• Built-in storage shelves for kettlebells, dumbbells and slam balls to keep training areas organised

• Wi-Fi enabled for updates, with offline operation capability

• Mounting bracket for Smart TV integration and external workout content

• Compact footprint of 97 x 151 x 228 cm, ideal for performance zones and functional spaces

• Mains powered system with 1920 x 1080p screen resolution for clear, professional display

PLEASE NOTE:
