

Urethane Kettlebells

SKU: **See variants**

Durable urethane coating with clear weight markings, these kettlebells deliver long-lasting performance and a professional look for any gym. The chrome-plated handle offers a secure, comfortable grip, while the offset design boosts strength, stability, and calorie burn through dynamic full-body training.

Key Features

- Offset centre of mass challenges grip and core stability
- Functional training tool for strength, endurance, and posture
- Durable urethane coating protects both kettlebell and flooring
- Chrome-plated handle for a smooth, secure grip
- Clear weight markings on both sides for easy identification
- Available in a full range from 4kg to 32kg
