

Black Bumper Plates

SKU: **See variants**

Engineered for durability and performance, our Black Rubber Bumper Plates are built to take the hit. Perfect for Olympic lifting, powerlifting, and CrossFit, these plates are designed to handle consistent dropping in high-use environments. Each plate features a tough rubber coating to protect floors, reduce noise, and guard against rust, while the stainless steel centre ensures smooth loading onto Olympic bars. Minimal maintenance, maximum resilience. Plate thickness: 5kg - 25mm 10kg - 47mm 15kg - 62mm 20kg - 72mm 25kg - 82mm Note: Use only on a quality lifting platform to extend the life of both bumpers and bars.
