

Dual Series, Leg Press / Calf Raise

SKU: **GG-DUAL-006**

Two-in-one leg press and calf raise design gives users the benefit of two key lower body exercises in one compact machine. The articulating footplate replicates natural squat mechanics for powerful leg training, while the adjustable back support and ergonomic handles provide comfort and stability.

Key Features

- Dual function machine for leg press and calf raise exercises
- Articulating footplate mimics natural squat pattern and supports full calf extension
- Large non-slip rubber platform ensures secure foot placement
- Commercial-grade frame for long-lasting durability
- 5mm American LOOS aircraft cable with 2,000lb breaking strength
- End fittings tested to 250,000 full-stack cycles for reliability
- Glass fibre reinforced nylon pulleys with deep V-groove for smooth movement
- Adjustable back support allows personalised positioning
- Ergonomic handles provide extra control and stability
- Colour-coded weight stack enables quick and easy resistance changes

Technical Specifications

Weight	229.6 kg
Length / Depth	194 cm
Height	152 cm
Width	115 cm
Frame Weight	111 kg

Weight Stack	113 kg
Pin Select	Yes
