

Platinum Series, Pec Fly / Rear Delt

SKU: **GG-PLAT-108**

Dual-function chest and rear delt training for balanced upper body development. Adjustable arms and a patented seat system deliver precise motion control, ensuring effective isolation of pectorals and posterior deltoids in one compact machine.

Key Features

- Dual-action design isolates pec fly and rear delt muscles
- Compact 1492mm low-profile frame saves floor space
- 3mm electrostatic powder-coated steel tubing for lasting durability
- Polished anti-corrosion guide rods for smooth, consistent movement
- 3.2mm injection-moulded translucent shroud resists wear and impact
- Ergonomic polyurethane handles and PU foam upholstery for comfort
- Reliable cable and belt drive system for long service life
- Patented 3-linkage seat adjustment ensures correct user alignment
- 5lb incremental weight stack supports gradual progression
- Fully enclosed moving parts for enhanced safety
- Complies with EN957 international safety standards

Technical Specifications

Weight	264.5 kg	Weight Stack	106 kg
Length / Depth	149 cm	Pin Select	Yes
Height	205 cm		
Width	162 cm		
Frame Weight	161 kg
