

Perform Series, Standing Calf

SKU: **GG-PERFORM-025**

Adjustable shoulder pads ensure a secure and comfortable fit so every user can train with proper alignment. This machine delivers smooth motion and reliable performance for focused calf development and long-term lower leg strength.

Key Features

• Targets the gastrocnemius muscles for powerful calf training

• 3mm thick functional tubing provides stability and durability

• Weight stack cage built with D-shape and racetrack tubing for structural strength

• 3.2mm thick translucent ABS shrouds protect against impact

• High-density poly-foam upholstery with double stitching for comfort and wear resistance

• Self-lubricating American Loos™ cable rated for 250,000+ cycles

• Adjustable shoulder pads support correct positioning and user comfort

• Ergonomic TPV handlebars with aluminium ring limit enhance grip and control

• Shielded moving components improve user safety

• Lathed pulley with precision bearing ensures smooth, consistent operation

• Integrated bottle holder for easy hydration access

• Fully compliant with EN957 safety standards
