

# Sterling Series, Smith Machine / Half Rack Combo

SKU: **GG-STER-121**

---

Versatile and space-efficient, the Gym Gear Sterling Series Smith Machine / Half Rack Combo combines two essential strength training stations in one heavy-duty unit. With a Smith Machine on one side and a Half Rack on the other, it allows users to target all major muscle groups using both guided and free weight movements. Built for commercial use, the frame features high-quality needle bearings for smooth operation, a durable powder-coated finish, and Olympic weight horns for efficient plate storage. Its low-maintenance, plate-loaded design and ergonomic construction make it a reliable solution for busy gym environments.

## Key Features

---

- Dual-function design with Smith Machine and Half Rack in one unit
- Robust construction with high-quality needle bearings
- Electrostatic powder-coated and heat cured for long-term durability
- Smooth, quick seat height adjustment
- Biomechanically designed for natural movement patterns
- Olympic weight horns fitted as standard for storage efficiency
- Low maintenance due to plate-loaded structure
