

Endurance Touch Cross Trainer

SKU: **GG-ENDUR-CTE-16**

Engineered for performance and stability, the Endurance Touch crosstrainer features a front drive system that supports a longer, more athletic stride. Users benefit from smoother, more dynamic workouts with greater comfort and control. The built-in anti-derailment system enhances safety, allowing for high-intensity training without compromising machine reliability. With full connectivity through SmartFocus and GymLoop, users stay motivated with real-time tracking and personalised features, while operators gain access to usage insights and live equipment data.

Key Features

- Large 16" touchscreen
- SmartFocus and GymLoop connectivity
- Multi-grip handles
- Cushioned pedals
- HR monitor
- Accessory storage
- Anti-derailment system
- Front drive for longer stride
