

Endurance Touch Upright Bike

SKU: **GG-ENDUR-UBE-16**

Built for comfort and connection, the Endurance Touch upright bike delivers a smooth, performance-driven ride. Its ergonomic design promotes proper alignment of hips, knees, and pedals, while the adjustable seat (horizontal and vertical) ensures the right fit for every user. With full integration through SmartFocus and GymLoop, members can access personalised workouts, live tracking, and entertainment. For gym operators, the bike provides real-time data, usage stats, and maintenance alerts to keep performance high and engagement consistent.

Key Features

- Large touchscreen display
- HR monitor
- Accessory storage
- Integrated pedal straps
- SmartFocus and GymLoop connectivity
- Horizontal and vertical seat adjustment
