

Rhino Pro V2 Strength Machine

SKU: **GG-RHINOV2**

Six commercial training stations in one compact footprint gives your facility serious training variety without wasting floor space. The Rhino Pro 2.0 combines cable, guided, rack-based and bodyweight training into one heavy-duty strength machine built for busy gyms, PT studios, schools and premium home setups.

Key Features

- Dual Adjustable Pulley, Smith Machine, Half Power Rack, Pull-Up Station, Lat Pulldown and Low Row for complete strength and functional training
- Space-efficient design helps maximise floor space while supporting hundreds of exercise variations
- 2 x 100kg weight stacks with a 2:1 cable ratio for smooth cable work and scalable resistance
- Integrated Smith Machine supports controlled barbell movements for safer guided lifting
- Half Power Rack allows free-weight squats, presses and rack-based strength exercises
- Multi-grip pull-up station adds versatile bodyweight training for upper-body strength
- Full-length integrated mirror helps users check form, positioning and technique during workouts
- Heavy-duty 75mm x 75mm x 3mm steel tubing delivers the strength needed for commercial use
- Over 720kg total machine weight provides a solid, stable feel under demanding training loads
