

Goat Anti-Chicken IgY Secondary Antibody

Product Details

Available Variants	1 mL (SKU:U-1010)
Isotype	IgG
Host Species	Goat
Concentration	1 mg/mL
Format	Affinity Purified
Physical State	Liquid
Buffer	Phosphate-buffered saline (PBS) (pH 7.2), sodium azide (0.02%, w/v) (as an anti-microbial agent).
Production Notes	Goats were immunized with purified chicken IgY (whole protein) emulsified in Freund's adjuvant. After multiple injections, goats were bled and serum collected. Antibodies were isolated using affinity chromatography.
Species Reactivity	Chicken
Immunogen	IgY
Specificity	Does not cross-react with mammalian IgGs
Quality Control	Each new lot of antibody is quality control tested by ELISA against chicken IgY where dilutions of 1:10,000 or more were found to produce a detectable signal.
Storage	Store at 4°C in the dark. Under these conditions, the antibodies should have a shelf life of at least 12 months (provided they remain sterile). For longer storage periods, dilute the antibodies with sterile glycerol and store at -20°C. Do not freeze these antibodies unless you want to store them for longer periods of time.
Country of Origin	United States
Shipping	Ice packs

Usage Statement

These antibodies are to be used as research laboratory reagents and are not for use as diagnostic or therapeutic reagents in humans.
