40x48 Washable Plastic Storage Pallet

View product on palletsandbins.com

PRODUCT OVERVIEW

This molded plastic pallet is a washable, durable alternative to wood for storage and material handling. The one-piece design has no seams, nails, or splinters, and the angled leg design helps reduce forklift damage by letting fork tines deflect off the leg instead of breaking or cutting the pallet. Choose no lip, partial lip, or full lip. A lip on the long side helps prevent product slippage and makes it easier to transport stacked, empty pallets.

**** Items are made to order, lead times can be 4 - 6 weeks ****
