Recycling Cart with Casters

View product on palletsandbins.com

PRODUCT OVERVIEW

This single-wall, one-piece plastic recycling cart is built for schools, government facilities, hospitals, and waste management operations. Molded from linear low-density polyethylene resin, it resists dents, scratches, stains, and rust, with a reinforced rim for strength and smooth rounded corners that help eliminate collection points. Rigid casters in the center and swivel casters on the outer corners give it a configuration designed for smooth rolling, even when fully loaded. It holds 20 cubic feet (16 bushels) and nests when empty.

**** Items are made to order, lead times can be 4 - 6 weeks ****

Key Features

- **20 Cubic Feet (16 Bushels)** – 43.75" x 28.75" x 40"
- **500 lb Capacity**
