

Non-Immune Chicken IgY Secondary Antibody

Product Details

Available Variants	1 mL (SKU:N-1010)
Isotype	IgY
Physical State	Liquid
Buffer	Phosphate-buffered saline (PBS)(pH 7.2), sodium azide (0.02%, w/v) (as an anti-microbial agent).
Production Notes	Eggs from at least 20 chickens were purified from the yolks using a proprietary method. The IgY fraction was then dialyzed against phosphatebuffered isotonic saline. Sodium azide was then added and the preparation was filter-sterilized (0.45 µm filter).
Quality Control	IgY preparation was analyzed by both SDS-PAGE and ELISA to confirm that IgY purity and ELISA reactivity meet specifications.
Storage	Store at 4°C in the dark. Under these conditions, the antibodies should have a shelf life of at least 12 months (provided they remain sterile). For longer storage periods, dilute the antibodies with sterile glycerol and store at -20°C. Do not freeze these antibodies unless you want to store them for longer periods of time.
Country of Origin	United States
Shipping	Ice packs
Usage Statement	These antibodies are to be used as research laboratory reagents and are not for use as diagnostic or therapeutic reagents in humans.
