

Anti-SAP30L Antibody

Product Details

Available Variants	100 µL (SKU:24371)
Isotype	IgG
Gene Name	SAP30L
Host Species	Rabbit
Format	Antigen Affinity Purified
Physical State	Liquid
Buffer	PBS + 0.02% NaN ₃
Applications	ELISA, WB
Dilution Ranges	WB: 1:500-1:1000 WB Brain: 1:500-1:1000
Species Reactivity	Human
Immunogen	Synthetic peptide corresponding to amino acids from the C-terminal region of human SAP30L.
Specificity	Reacts with the C-terminal region of human SAP30L. Detects wild-type transfected hSAP30L or GST-hSAP30L fusion protein as well as endogenous hSAP30L in human cell lines (e.g., HEK293 and MCF-7 cells). Detects wild-type transfected hSAP30L or GST-hSAP30L fusion protein in non-human cell lines (e.g., NIH3T3 cells), but does not detect endogenous non-human SAP30L. The transfected wild-type hSAP30L runs with an apparent molecular weight of ~30kDa and the endogenous hSAP30L band runs with an apparent molecular weight of 21-22 kDa. The difference in the size of the bands is unknown, but is seen by investigators in all studies of hSAP30L. Possible explanations for the size difference may be to cleavage product, degradation and/or product or post-translational modification.
Quality Control	Western blots performed on each lot.

Storage	Recommended that the undiluted antibody be aliquoted into smaller working volumes (10-30 uL/vial depending on usage) upon arrival and stored long term at -20° C or -80° C, while keeping a working aliquot stored at 4° C for short term. Avoid freeze/thaw cycles. Stable for at least 1 year.
UniProt ID	Q9HAJ7
Country of Origin	United States
Shipping	Blue Ice
Expiration	After date of receipt, stable for at least 1 year at -20°C.
Usage Statement	For research use only. Not intended for therapeutic or diagnostic use. Use of all products is subject to our terms and conditions, which can be viewed on our website.
