

40x48 Rackable Pallet - 6 Runner

PRODUCT OVERVIEW

This 6-runner plastic pallet is built for operations that need to put product on the rack, not just stack it on the floor. Available in four rod configurations, it scales from light-duty handling up to heavy racking loads — so you can standardize on one pallet footprint across multiple parts of your operation instead of stocking several different SKUs.

Key Features

- **48" x 40" x 6" Footprint** – Standard GMA size fits existing rack systems, trailers, and warehouse layouts
- **25,000 lb Static Load / 5,000 lb Dynamic Load** – Rated across all four variants
- **Racking Capacity from 1,000–3,000 lbs** – Choose the rod count that matches your load: 0-rod for light duty, 5-rod for the heaviest racking applications
- **20 Top-Deck Grommets / 9 Bottom-Runner Grommets** – Standard drainage/venting pattern
- **Weighs 54–66 lbs** – Depending on rod configuration

Choose Your Configuration

Variant	Racking Capacity Weight
6-Runner / 0 Rod 1,000 lbs	54 lbs
6-Runner / 1 Rod 1,400 lbs	56 lbs
6-Runner / 3 Rod 2,800 lbs	60 lbs
6-Runner / 5 Rod 3,000 lbs	66 lbs
