

40x48 Rackable Pallet - 5 Runner

PRODUCT OVERVIEW

This 5-runner plastic pallet is built for operations that need serious static load capacity without the added cost of full rackability. With a 30,000 lb static load rating, it handles heavy palletized loads in warehouse storage, staging, and floor-stacking applications. Choose the 0-rod version for straightforward stackable use, or step up to the 3-rod version when you need 2,500 lbs of racking capacity for selective rack systems.

Key Features

- **48" x 40" x 5.9" Footprint** – Standard GMA size fits existing rack systems, trailers, and warehouse layouts
