

40x48 Dual Deck Rackable Pallet

PRODUCT OVERVIEW

This dual deck plastic pallet gives you a solid top and bottom deck instead of open runners — useful when you're handling smaller or irregular products that could slip through a runner-style base, or when you need a cleaner surface for conveyor and automated handling. It's rated for 30,000 lbs static load across all configurations, with four rod options to match the racking demands of your application.

Key Features

- **48" x 40" x 5.9" Footprint** – Standard GMA size fits existing rack systems, trailers, and warehouse layouts
- **Solid Dual Deck Construction** – Full top and bottom deck surfaces, unlike open-runner designs
- **30,000 lb Static Load / 5,000 lb Dynamic Load** – Rated across all four variants
- **16 Top-Deck Grommets / 16 Bottom-Runner Grommets** – Balanced drainage/venting pattern on both decks
- **Racking Capacity up to 2,800 lbs** – Choose the rod count that matches your load
- **Weighs 61–75 lbs** – Depending on rod configuration

Choose Your Configuration

Variant	Racking Capacity	Weight
Dual / 0 Rod	Not rackable (stackable only)	61 lbs
Dual / 6 Rod	2,500 lbs	70 lbs
Dual / 8 Rod	2,800 lbs	72 lbs
Dual / 10 Rod	2,500 lbs	75 lbs
