

48x48 Rackable Pallet - 6 Runner

PRODUCT OVERVIEW

This square 48x48 plastic pallet gives you extra deck surface over a standard 48x40 footprint — useful for oversized loads, drum applications, or products that need more support area than a GMA-standard pallet provides. It's built on a 6-runner base and rated for 20,000 lbs static load, with three rod configurations to match your storage or racking needs.

Key Features

- **48" x 48" x 6" Footprint** – Extra deck surface over standard 48x40 pallets
- **20,000 lb Static Load / 5,000 lb Dynamic Load** – Rated across all three variants
- **28 Top-Deck Grommets / 9 Bottom-Runner Grommets** – Standard drainage/venting pattern
- **Racking Capacity up to 2,000 lbs** – Choose the rod count that matches your load: 0-rod for stackable-only use, 5-rod for the highest racking capacity in this line
- **Weights 65–72 lbs** – Depending on rod configuration

Choose Your Configuration

Variant	Racking Capacity	Weight
6-Runner / 0 Rod Not rackable (stackable only)		65 lbs
6-Runner / 3 Rod	1,800 lbs	70 lbs
6-Runner / 5 Rod	2,000 lbs	72 lbs
