40x48 Mid Duty 3 Runner no Rods

View product on palletsandbins.com

PRODUCT OVERVIEW

This mid-duty 3-runner plastic pallet is built for applications that fall between light-duty handling and full heavy-rack storage. With a 12,000 lb static load rating and a lighter overall weight than our full-duty 6-runner lines, it's a good fit when you need solid load capacity without paying for more pallet than the job requires. Available in a stackable 0-rod version or a 3-rod version rated for 1,800 lbs of racking.

Key Features

- **48" x 40" x 6" Footprint** – Standard GMA size fits existing rack systems, trailers, and warehouse layouts
- **12,000 lb Static Load** – Rated across both variants
- **4,000–5,000 lb Dynamic Load** – Depending on rod configuration
- **18 Top-Deck Grommets / 6 Bottom-Runner Grommets** – Standard drainage/venting pattern
- **Two Configurations** – 0-rod for stackable use, 3-rod for 1,800 lb rack-capable use
- **Weighs 42–46 lbs** – Lighter than full-duty 6-runner pallets in this size class
