

Anti-Cortactin Recombinant Chicken Chimeric mAb

Product Details

Available Variants	100 µL (SKU:78-601) 20 µL (SKU:78-601-020)
Conjugate	Unconjugated
Isotype	IgY
Clone	4F11-G5-F10
Gene Name	CTTN
Host Species	Chicken
Concentration	1 mg/mL
Format	Purified by affinity chromatography
Physical State	Liquid
Buffer	1X PBS, 0.05% Sodium Azide pH 7.4
Production Notes	This recombinant antibody is a chimeric antibody created by replacing the mouse heavy and light constant regions of clone 4F11-G5-F10 with chicken IgY heavy and light constant regions. As such this antibody retains the same binding performance as the original clone 4F11-G5-F10 but can be detected using standard anti-chicken secondary antibodies allowing flexibility for multiplexing applications. This antibody is expressed recombinantly in mammalian cells and then affinity purified from the cell culture media.
Applications	ICC, IHC, IP, WB
Dilution Ranges	WB: 1:1000-1:3000 IHC: 1:100-1:500 ICC: 1:100-1:500
Species Reactivity	Bovine, Chicken, Hamster, Human, Mouse, Rat

Immunogen	Mixture of affinity-purified tyrosine phosphoproteins from chick embryo fibroblasts expressing activated pp60src
Specificity	No cross-reactivity reported
Molecular Weight	65 kDa
Quality Control	Each new lot of this antibody is tested to confirm that it recognizes a single immunoreactive band of expected molecular weight when tested by Western Blot.
Storage	Aliquot and store at $\leq -20^{\circ}\text{C}$ for long term storage. For short term storage, store at $2-8^{\circ}\text{C}$. For maximum recovery of product, centrifuge the vial prior to removing the cap.
UniProt ID	<u>Q01406</u>
Country of Origin	United States
Shipping	Shipped on ice packs
Expiration	24 months from date of receipt
Usage Statement	These antibodies are to be used as research laboratory reagents and are not for use as diagnostic or therapeutic reagents in humans.

Product Images

Immunofluorescent staining of HeLa cells using Aves Labs anti-Cortactin recombinant chicken monoclonal antibody (green, Cat No. 78-601). The stained cells were mounted with Antibodies Incorporated Fluoroshield with DAPI and DABCO mounting medium (Cat No. AR-6505). DAPI nuclear stain (blue) shows cell nuclei. Anti-Cortactin specifically stains the endogenous cortactin protein in HeLa cells.

Western blotting of HeLa cell lysates with anti-Cortactin recombinant chicken mAb antibody at ~65 kDa. The chicken mAb was detected with anti-chicken-HRP (Cat No. 80-1000-HRP).
