

# Anti-Glial cell line-derived neurotrophic factor (GDNF) Antibody

## Product Details

|                    |                                                                                                                     |
|--------------------|---------------------------------------------------------------------------------------------------------------------|
| Available Variants | 500 µL (SKU:C-1518-500)                                                                                             |
| Conjugate          | Unconjugated                                                                                                        |
| Isotype            | IgY                                                                                                                 |
| Host Species       | Chicken                                                                                                             |
| Format             | Affinity-purified                                                                                                   |
| Physical State     | Liquid                                                                                                              |
| Buffer             | PBS with 0.02% sodium azide.                                                                                        |
| Applications       | ELISA, ICC, IHC, WB                                                                                                 |
| Dilution Ranges    | WB: 1:500-1:2000<br>IHC: 1:50-1:100                                                                                 |
| Species Reactivity | Human, Mouse, Rat                                                                                                   |
| Immunogen          | Mixture of two human GDNF peptides (101-118 and 199-211 aa). Both peptides are highly conserved in human and mouse. |
| Specificity        | Human GDNF, cross reactivity to mouse, rat.                                                                         |
| Storage            | Short term storage at 2-8°C for one week. At -20°C as an undiluted liquid for up to 12 months.                      |
| UniProt ID         | <a href="#">P39905</a>                                                                                              |
| Country of Origin  | United States                                                                                                       |
| Shipping           | 2-8°C (on cold packs)                                                                                               |
| Expiration         | 12 months after date of receipt (unopened vial).                                                                    |
| Usage Statement    | For research use only.                                                                                              |
