

## Anti-Peptide YY (PYY) Antibody

### Product Details

|                    |                                                                                                |
|--------------------|------------------------------------------------------------------------------------------------|
| Available Variants | 100 µL (SKU:C-1536-100)                                                                        |
| Conjugate          | Unconjugated                                                                                   |
| Isotype            | IgY                                                                                            |
| Host Species       | Chicken                                                                                        |
| Format             | Affinity-purified                                                                              |
| Physical State     | Liquid                                                                                         |
| Buffer             | PBS with 0.02% sodium azide.                                                                   |
| Applications       | ELISA                                                                                          |
| Dilution Ranges    | ELISA: 1:200 to 1:1000 (coating antibody), 1:2000 to 1:5000 (detection antibody)               |
| Species Reactivity | Human, Mouse, Rat                                                                              |
| Immunogen          | A peptide from the C-terminus of human mature Peptide YY (24-36 aa) .                          |
| Specificity        | Human Peptide YY (24-36): Affinity purified.                                                   |
| Storage            | Short term storage at 2-8°C for one week. At -20°C as an undiluted liquid for up to 12 months. |
| UniProt ID         | <a href="#">P10082</a>                                                                         |
| Country of Origin  | United States                                                                                  |
| Shipping           | 2-8°C (on cold packs)                                                                          |
| Expiration         | 12 months after date of receipt (unopened vial).                                               |
| Usage Statement    | For research use only.                                                                         |

# Product Images

Analysis of PYY in Sandwich ELISA. Coating antibody was Chicken polyclonal antibody to human Peptide YY (C-1536-100) at 1:400. Detection antibody was Chicken polyclonal antibody to PYY biotinylated (C-1539-100) at 1:5,000.
